

Md Reyad Hossain

Address : Kampar, Malaysia
Contact No : +60174862358
Email ID : reyadhussain.cse@gmail.com LinkedIn: [MdReyadHossain](#)

SUMMARY

- ❖ **Highly motivated graduate** with a bachelor degree in CSE, pursuing MSc in CS (by Research), specialising in machine learning applications, passionate about leveraging technical expertise to address global challenges, with a strong focus on research, teamwork and adaptability.
- ❖ **Led teams and excelled in presentations:** Demonstrated leadership abilities by leading teams in thesis and departmental projects, consistently ranking in the top 5% of classmates for presentation skills, and actively participating in competitions.
- ❖ **Engaged in impactful extracurricular activities:** Actively involved in student association, including skill development and voluntary organizations and successfully organized several national events.

PROFESSIONAL EXPERIENCE

Graduate Research Assistant

September 2025 – August 2027

Universiti Tunku Abdul Rahman

Project: Machine learning based SDM

RELEVANT COURSEWORK

Data Science	Artificial Intelligence	Machine Learning	Computer Algorithms
Data Structure	Computer Architecture	Neural Network and fuzzy system	

ACADEMIC CREDENTIALS

MSc in Computer Science (By Research) Ongoing

Sep 2025- Aug 2027

Universiti Tunku Abdul Rahman

Kampar, Malaysia

BSc. in Computer Science and Engineering

April 2019 - June 2024

International Islamic University Chittagong (IIUC)

CGPA: 3.493 (Out of 4.00)

Date of Result Published: 3th June, 2024

Higher Secondary Certificate

2017

Govt. Haji Mohammad Mohsin College, chattogram

GPA: 4.83 (Out of 5.00)

Secondary School Certificate

2015

Hashimpur M A K U High School Chattogram

GPA: 5.00 (Out of 5.00)

RESEARCH EXPERIENCE

Undergraduate Research Work

January 2023 - February 2024

Thesis Title " Dengue detection using machine learning Algorithms"

'Develop machine learning model for dengue detection using algorithm like Random-forest, SVM, decision tree etc.

The model achieved an accuracy of 98% in identifying critical cases based on clinical data' Tools:

python, Scikit-learn, Tensor-flow.

Impacts: Aimed at enhancing early disease detection and public health monitoring.

- ❖ *Ongoing Project: AI for Climate prediction & Disaster Management (Collaboration with EjadLab)*

PROJECTS

1. Smoke detection using Arduino

'Create a low-cost smoke detection system leveraging Arduino sensors to improve fire safety mechanisms'

Presented to: Department (2022)

2. Blood donation system project

'Designed and implemented a platform using python and MySQL to streamline blood donor recipient matching'

Presented to: Department (2023)

3. News Article share prediction (2023)

'Build a prediction model using machine learning to estimate user engagement with online news article'

PUBLICATION

1. Machine Learning-Based Species Distribution Modelling of the Mountain Peacock-Pheasant in Peninsular Malaysia under Data Scarcity (ICMLDE-26: Accepted)
2. Machine Learning Based Early Detection of Dengue: Case Study Chittagong (ICISSET-26:Accepted)

CERTIFICATES

- Python for Data Science (IDM)
- AI For My Future (Microsoft)
- Generative AI Fundamentals with Google Cloud (Udacity)
- Datatype in Python (DataCamp)
- E-Commerce Operations Volunteer (UTAR eStore)

SKILLS

Languages: Python, C, C++, SQL

Problem solving: solved 450+ problems on several online judge.

Software: Code-blocks, AutoCAD, Git-hub, VS-code, PyCharm

Web technologies: HTML,CSS

INTERPERSONAL SKILLS

Team work | Public speaking | Project Management | Problem Solving | Leadership | Communication | Work Under Pressure

LINGUISTIC PROFICIENCY

- English (Fluent Working Proficiency)
- Bangla (Native Language)
